

# RECIPROCITY

This key school value develops a sense of sharing, caring and team building in our pupils. It supports the development of a positive school ethos and demonstrates positive behaviours which form a key part of our schools behaviour policy.

We want our children to respond to the positive actions of others and to do for others as they would wish others to do for them, creating an ethos of mutual respect and courteousness in the school.

We wish to promote in our children the ability to give freely of themselves without expecting anything back.

## ASSOCIATED

## VALUES

**Caring**  
**Appreciation**  
**Cooperation**
